FEEDBACK REPORT ANALYSIS 2018-19

The institute prioritizes the holistic development of students, ensuring their progression towards achieving desired educational outcomes. It is committed to maintaining the highest standards in the teaching and learning process, implementing numerous initiatives to enhance the quality of education in the best interest of the students. To assess the effectiveness of its teaching methods and initiatives, the institute gathers feedback from key stakeholders, especially students. Recognizing that student feedback is crucial for a dynamic and successful curriculum, the institute values their input on aspects such as content relevance, difficulty, teaching methods, and available resources. This feedback offers essential insights into how students perceive their learning experience, enabling the institution to identify areas for improvement and keep the curriculum aligned with their needs. As a result, student satisfaction and learning outcomes improve, while fostering a culture where students feel heard and appreciated. To support this, the institute has developed a robust mechanism for collecting, analyzing, and implementing corrective actions based on feedback.

In this line, at the end of the 2018-19 academic session, upon the recommendation of IQAC and as a matter of practise, feedback on different aspects were collected from the students. A total of 326 no. of students participated in this process and provided their valued feedback. The feedbacks were then handed over to the Academic Bursar, who, along with the Director IQAC, examined the feedback report, analyzed them and prepared a comprehensive report along with his suggestive views and presented in in the last academic council for further action. The Detailed report is appended herewith.

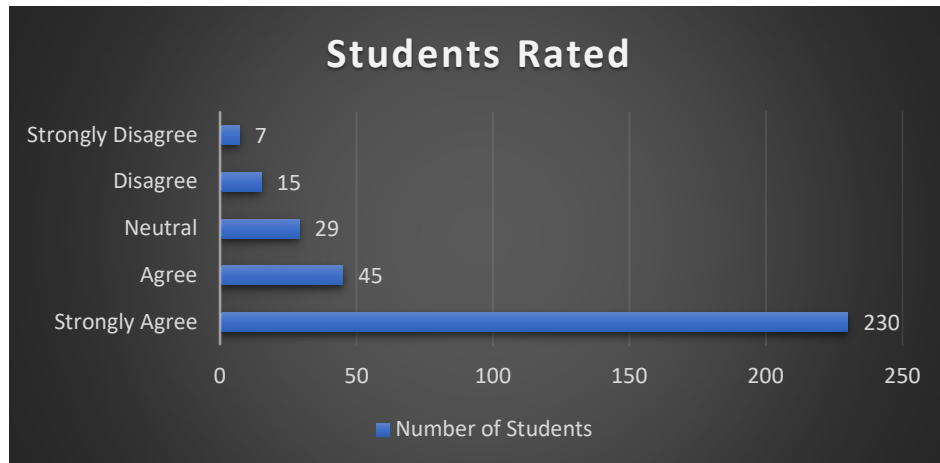

At the end of the academic session, feedback was collected from a total of 326 students from all streams of 1st year, 2nd Year and 3rd year. The names of the students have been kept anonymous. The details of the students taken part in the feedback collection process is given below.

	Arts	Science	Commerce
+3 1st Year	45	52	16
+3 2nd Year	38	49	12
+3 3rd Year	50	46	18

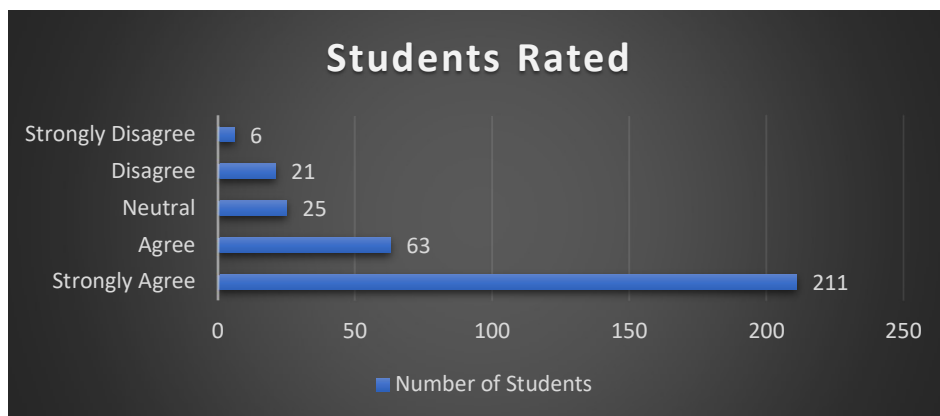

The students were given a total of 15 questions on the overall facilities of the institute ranging from syllabus coverage to physical facilities available at the college. While preparing the questions, all aspects of the institution (scholastic and co-scholastic) have been taken into consideration so as to generate an in-depth understanding of the students' perception of the college, which shall ultimately help the institution taking quality enhancement measures. After collection of feedback, the forms were thoroughly analyzed and it was found out that while the college has performed well in some areas, there are certain grey areas where necessary steps need to be taken by the administration and the teachers.

A proper analysis of the report along with the decisions taken in the meeting held in presence of the Academic council and the IQAC is given hereunder.
